```
================================================================================
Version 0.76                                                       2020-04-09
================================================================================
* Contains XMT-120A firmware v1.19.
* Contains XMT-350 firmware v1.29.

================================================================================
Version 0.75                                                       2018-11-13
================================================================================
* Contains XMT-120A firmware v1.18.
* Contains XMT-350 firmware v1.28.

================================================================================
Version 0.73                                                       2017-08-17
================================================================================
* Contains XMT-120A firmware v1.18.
* Contains XMT-350 firmware v1.26.

================================================================================
Version 0.72                                                       2017-01-31
================================================================================
* Contains XMT-120A firmware v1.18.
* Contains XMT-350 firmware v1.24.

================================================================================
Version 0.71                                                       2014-05-22
================================================================================
* Contains XMT-120A firmware v1.17.
* Contains XMT-350 firmware v1.23.
* Fixed a performance issue.

================================================================================
Version 0.7                                                        2014-05-22
================================================================================
* Contains XMT-120A firmware v1.17.
* Contains XMT-350 firmware v1.23.
* Replaced communications back end.

================================================================================
Version 0.6                                                        2013-03-19
================================================================================
* Contains XMT-120A firmware v1.16.
* Contains XMT-350 firmware v1.22.

================================================================================
Version 0.5                                                        2013-02-28
================================================================================
* Contains XMT-120A firmware v1.16.
* Contains XMT-350 firmware v1.21.

================================================================================
Version 0.4                                                        2013-01-17
================================================================================
* Contains XMT-120A firmware v1.15.
* Contains XMT-350 firmware v1.02.

================================================================================
Version 0.3                                                        2012-12-22
================================================================================
* Contains XMT-120A firmware v1.14.
* Contains XMT-350 firmware v1.00.

================================================================================
```

Version 0.2   2012-11-01
==
* Added support for XMT-350.
* Contains XMT-120A firmware v1.05.
* Contains XMT-350 firmware v0.92.

==
Version 0.1   2012-07-08
==
* Initial release.
* Contains XMT-120A firmware v1.04.
